PREMIUM ROTORS FOR PREMIUM BRAKE PADS
Premium Wagner® Brake rotors are engineered for maximum performance with an E-Shield® protective electro-coating applied to all non-braking surfaces. This black-colored coating prevents corrosion, makes removal for service fast and simple, and is visually attractive for open spoke wheels. A turned, smooth surface finish aids in the proper seating of the friction and requires less time for rotor "break-in".

QUICK TO INSTALL - NO OILY RESIDUE
